I was able to get in successfully. I did have to update my password in the pop-up box but then was able to access it fine. If Laurel is having password issues, she might want to try clicking on the little hand icon in the system tray and bring up the window below. You can double click on the link I have highlighted and update your password.

A Notification from Lotus Quickr

Please visit the page "EPA CALPUFF Modeling" in wyregionalhazemodeling.

Additional comments from user Rebecca Matichuk:

I have added WY Regional Haze CALPUFF files to our Quickr Site. When you have time, please navigate around to let me know if the files are viewable/accessable.

Thanks!
Rebecca
